#### Forum GSAH 2025

27 May 2025, 15:00–18:00

15:00: Poster exhibition, coffee and cake

15:30: Welcome, Prof. Serena Tolino, Director GSAH

15:45: Humanities Rewired. Making Meaning in our

Digital Worlds, GSAH doctoral students

18:00: End-of-semester celebration, food, drinks, and music

At the GSAH Forum 2025, we are experimenting with online outreach formats—a vital skill in today's academia. Join us in serious playfulness as we explore the promises and pitfalls, the affordances and constraints of our digital worlds. How can we, as humanities scholars, make ourselves heard and remain meaningful in an increasingly science-averse digital cacophony of post-truth?

After the Forum, the Walter Benjamin Kolleg invites you to an end-of-semester celebration with a farewell to our new alumni.
